Reminder	Our records indicate that you have a history of high blood pressure. Important goals for improving your health include the following: 1. Blood pressure goal is under 140/90. 2. Keep your weight down to a healthy level, and limit the salt in your diet. 3. See your healthcare provider regularly; by doing so, your healthcare team can help you achieve these goals.

Reminder Walking or participating in moderate exercise at least 30 minutes/day for adults, and 60 minutes for children, 5 days/week can improve your overall health; please check with your healthcare provider before beginning any new exercise program. Eat healthier foods and do more physical activity throughout life, from infancy through adulthood, in order to prevent diseases that often result from obesity, like diabetes/high blood pressure. For more information, check out the website <http://www.everybodywalk.org/>
