Other Data/Comments:

Subjective:**Telemedicine Visit**

Douglas Miller was contacted via **phone** for a telemedicine visit.

x Tele audio visit occurred because patient declined or because tele video was not accessible.

Translator used: **No** ___ Interpreter used: ID#

Two point verification of patient's identity completed. The patient's/parent's consent for a virtual visit was obtained at the start of this call. Patient/parent acknowledges the virtual visit (call or video) is an acceptable mode of delivery health care services.

Spoke with: **patient**

Concerns/health issues discussed:

The patient is a 67-year-old male who presents via virtual visit for review of blood workup results.

He has been making efforts to increase his physical activity, including daily exercises. He has expressed a preference for home-based physical therapy over sessions at the PACE center. His goal is to regain his previous level of function. In spite of being informed that he would not regain his ability to walk, he has achieved this milestone.

He has not had a dental consultation, prior to his illness. He reports significant dental decay, which has resulted in difficulty chewing. A previous referral to a dentist was made on 01/23/2026, but he was unable to attend due to being overwhelmed by other medical appointments.

Patient History Entered on: 11/26/2024

Patient History: crohns disease CVA x 5 Short bowel syndrome

Family History: Mom-colon cancer, age 85

Social History: non-smoker

Surgical History: Bowel resection x 3 Left hip surgery

Objective:

Physical exam deferred

Assessment/Plan:

Follow-up: 3 Month(s) as a ___ Telemedicine call **x** Clinic/office appointment or ___ As needed/PRN

Informed patient that a follow-up call from the nursing staff will be coming shortly to review the visit.

Concerns/Problems addressed during telemedicine visit with plan of action:

1. PACE ongoing evaluation.

Laboratory workup reviewed with the patient. Overall reassuring. Patient tells me that he is trying his best to do physical therapy at home. He declined physical therapy at PACE center here. He was encouraged to work up as much as he can with safety measures.

2. Dental issues.

He reports that his teeth are rotted out, and he has a hard time chewing. A referral to a dentist will be scheduled.

The participant's consent for Copilot DAX AI was obtained at the start of this visit.

1x Order for Escort 03/03/2026 3pm-5pm

1. CNA to escort to medical appt

2. Please meet participant at 3pm for 330pm appt at LHFHC Dental

1809 National Ave San Diego, CA 92113

3. Assist as needed and remain with participant until safely picked up by PACE transportation
